

cccStuttgart

Hello from the Chaos

Get to know Chaos Computer Club (Stuttgart) e.V.

Disclaimer

- I'm **NOT** an official spokes person of the CCC e.V. nor the CCCS e.V.
- Andrea (Princess) was actually supposed to give the talk, but she doesn't have time.
- So I stepped in.
- I'm just an ordinary member of CCC e.V.
- Gonna do PowerPoint-Karaoke on my own slides (🙏 **Wikipedia** & **Princess**).

Who Am I

- My name is Sven (Weltraumschaf*).
- Nerd since my older brother bought an Amiga 500.
- You know me as a host of OWASP Stammtisch Stuttgart.
- But I'm way longer "in the chaos".
- ~20 associated to the CCCS, mostly as "visitor".

* Yes, we all have nick names & use them 🧐

What is this CCC?

From the club's articles of association:

“a galactic community of life forms, independent of age, sex, race or societal orientation, which strives across borders for freedom of information...”

(Wikipedia)

What is this CCC?

- Europe's largest association of hackers (Wikipedia claims).
- Founded 1981 by Wau Holland & others.
- With local chapters (called Erfa-Kreise).

What does the CCC?

- Advocates more transparency in government,
- freedom of information,
- and the human right to communication.
- Supports the principles of the hacker ethic.
- Fights for free universal access to information and technology.

Famous Quote

“Öffentliche Daten nützen, private Daten schützen.”

—*

“Make use of public data, protect private data.”

The quote is attributed to Wau.

* This m-dash is a deliberately made by me and not AI 😂

What Did They Hacked?

- BTX-Hack (1984): causing it to debit DM 134,000 a Hamburg bank in favor of the club.
- GSM-Hack (1998): successfully cloning of a GSM customer card & breaking the COMP128 encryption algorithm.
- Schäuble fingerprints (2008): acquired and published the fingerprints of German Minister of the Interior Wolfgang Schäuble.
- Staatstrojaner affair (2011): showed it can fully remote control target which is a contradiction to the ruling of the constitutional court.
- Apple TouchID (2013): unlock an iPhone 5S.
- Samsung S8 iris recognition (2017): claimed to be able to trick the authentication system.
- ...

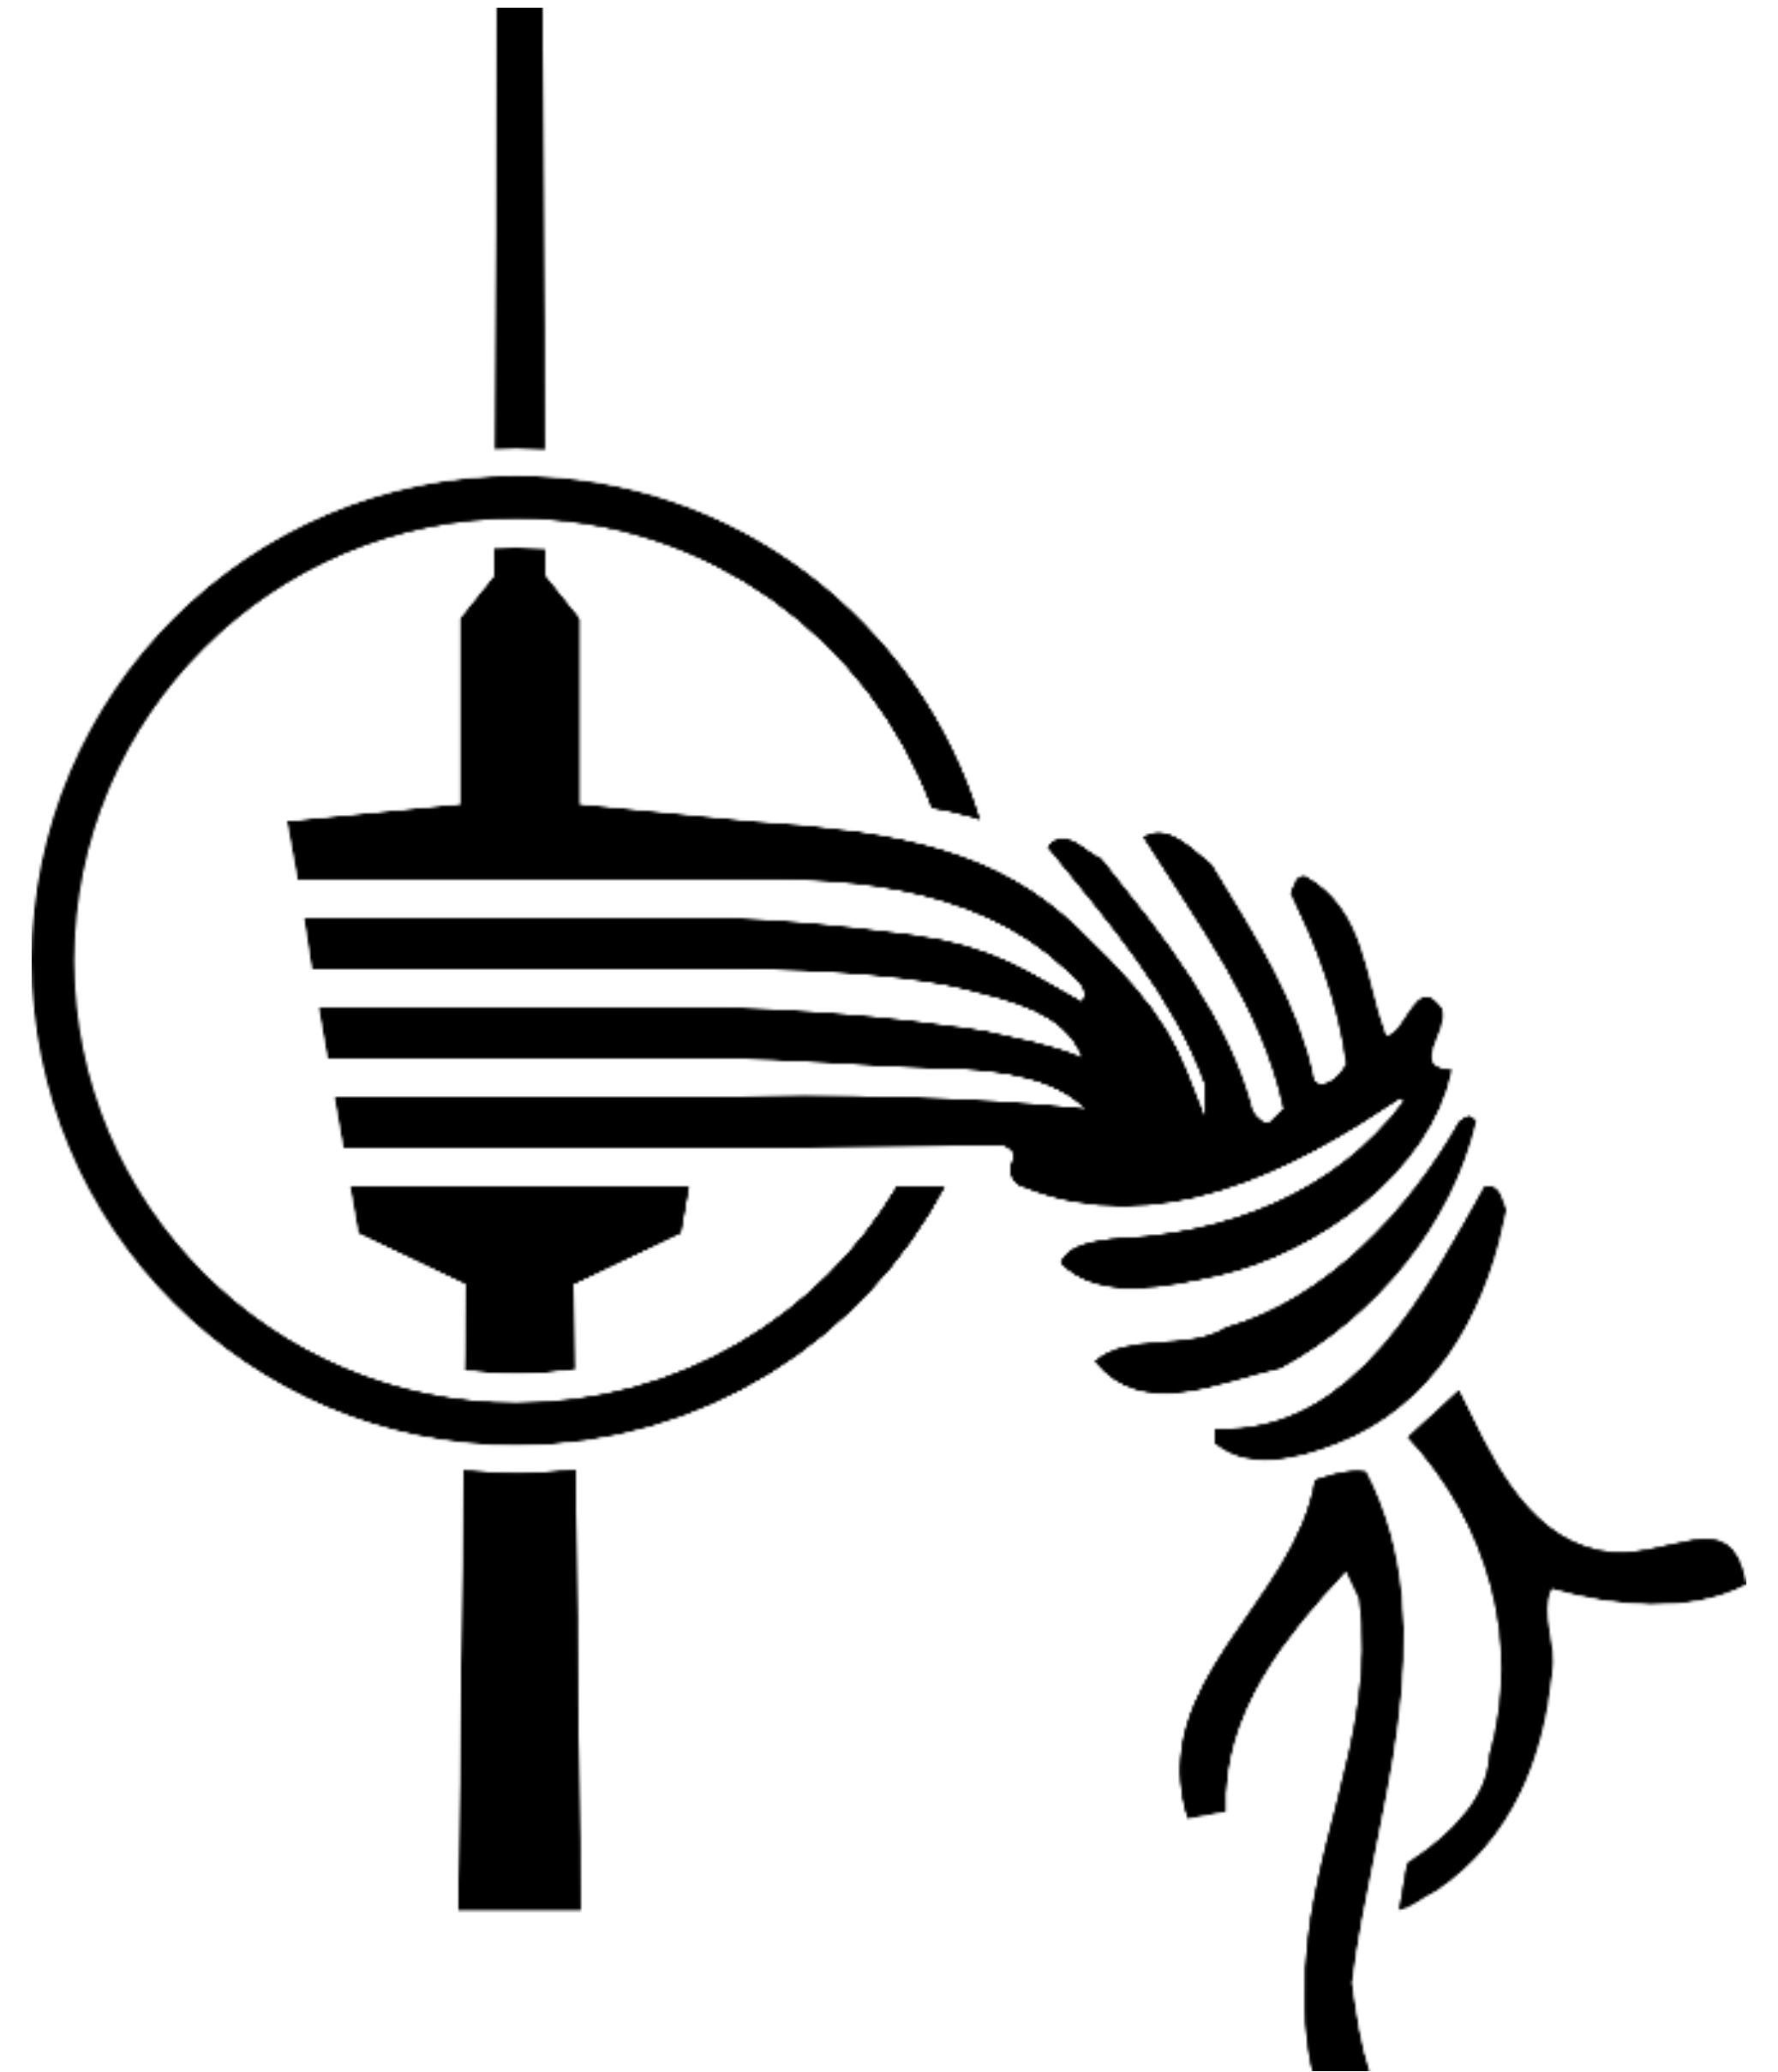

Come Into the Chaos

- We're mostly harmless 🧐
- No need to be a member.
- All creatures welcome 😊
- Chaos Communication Congress
- Easterhegg
- Gulaschprogrammierenacht (GPN)
- ... (see <https://events.ccc.de/>)
- Recordings at <https://media.ccc.de/>

CCCS e.V.

Chaos Computer Club Stuttgart

How It All Began

- Mai 2001: first post on IRC & meeting at Unithekle.
- Start with 1 Stammtisch* per month.
- Stammtisch became popular quite quickly → 2 per moth.
- 2003: Start of organizing talks.
- Idea from a party: “any one of us can give a talk on any topic”
- Lots of different venues over the years, some odd.
Since 2008 at the Stadtbibliothek Stuttgart (city library).

* Stammtisch is a thing in Germany 😂

The Attempt to Set Up a Registered Association

- In Germany, there are registered associations (e.V.).
- These may have charitable status, which brings some benefits (taxes I guess 🙄).
- Tax office has to approve this, and there are strict conditions attached. 🙅
- For example, you are not allowed to provide legal advice! 🙅
- There was a talk “My rights during a house search”... 🚔
- YOU are DOING legal ADVICE! eleven → rejected 🤔
- There were ideas to hack the system: register at other location or carnival society 😂
- Established at the end without charitable status in 2008.

Where to Meet Us?

- Visit us at our Stammtisch (we're mostly harmless 🤗) every
 - 1st Tuesday of the month at Rote Kapelle (Feuersee) or
 - 3rd Wednesday of the month at Shack (Hackerspace S-Wangen)*.
- Come to one of the talks at Stadtbibliothek Stuttgart.
- Hack the Box at Shack every 3rd Friday.
- Join the mailing list/Matrix Chat/IRC/...
- All infos here (events, projects, live streams etc.): <https://www.cccs.de/>

* My 1st OWASP Stammtisch was there

Haecksen

- **DISCLAIMER:** This is definitely Andreas' home turf 🤪
- Founded 1988 for FLINTA persons interested in technology.
- The name: Hexe (ger. witch) + Hacker = Haeckse.
- There you don't need to fear Mansplaining or bullies.
- There you can meet other FLINTA nerds 🧐
- <https://www.haecksen.org/>

Logo of the Göttinger Haecksen

Thank You!

If you want answers from a real CCC spokes person:

Jan (Vollkorn) is here 🤪
